

San-O₃-tyzer Technical Information

Standard Equipment

- Aquawing Ozone Systems
CD12/AD Ozone Generator(s)
- Hamilton EVO Water Heater(s)
- 316T Stainless dual chamber tank
 - Ozone introduction section with patented static mixing chamber
 - Heated water section with patented CWIS (Cold Water Injection System)
- Fully automated control system
- Hot and cold recirculation pumps
- Completely pre-piped, pre-wired, factory assembled, tested, and operationally certified
- Standard design is for 105° F water temperature, with any desired temperature available upon request

Optional Equipment

- Storage tanks and expansion tanks can be added to any system

- V = Vertical rack mount
- Dimensions are not for construction purposes. For exact measurements, consult factory.
- For heater sizing, consult factory.

San-O₃-tyzer Lite Technical Information

Standard Equipment

- Aquawing Ozone Systems CD12/AD Ozone Generator(s)
- Fully automated control system
- Completely pre-piped, pre-wired, factory assembled, tested, and operationally certified
- Space-saving design is mounted on existing bulkhead

Optional Equipment

- Storage tanks and expansion tanks can be added to any system

Model	Length	Depth	Height	Cold Inlet	Cold Outlet	FL Amps 110V	Shipping Weight
SOT Lite	22"	16"	42"	1.5"	2.5"	2.62	160 lbs.
